

Nephrolepis exaltata

B O S T O N F E R N

About

Ferns grow naturally in tropical regions all over the world, but they also make great indoor plants. In the wild, they can grow up to 1.5m tall, but they usually stay between 40 and 90cm indoors.

Care

Light: bright to medium indirect light
Water: Keep soil moist, but not too wet.

Pets

Boston ferns are non-toxic and safe for pets!
